

KA 5743

## Coffee Maker »Café Caprice Thermoline«

**Colour / Material:** brushed stainless steel-black

**Capacity / Content:** for 8 cups

**Output:** approx. 1400 W

**EAN-no.:** 4008146022081

- VAPOTRONIC BOILING SYSTEM: fresh water will be heated up on optimum scalding temperature (98°C) and given in one downpour over the coffee flour. This procedure guarantees a fully unfold coffee flavour and bitters will be minimised
- stainless steel vacuum jug with aroma protector lid and non-drip valve for a long-lasting heat storage
- pivoted filter 1 x 4 with aroma protector lid and screw cap
- non-drip valve enables to pour coffee during the boiling process
- automatic switch off
- on-switch with pilot light for boiling process
- water level marks inside stainless steel water container
- cable storage
